## Create variations for this listing

To list variations (for example, the same product in a different size or colour), begin by selecting a variation type below. The variation type cannot be edited after the parent SKU is created. If you have questions about creating variations please view [how to create product variations](#).

Choose Variation type:

☐ Size

☐ Color

By choosing this option, the edits made to this listing will be discarded. To save your changes, please submit the listing and then select this option by editing the listing on [Manage Your Inventory](#).

List all of your variants for the variation types below.

For the fields below, list the variations that exist for your products. For example, if you are selling Pirate Shirts in the sizes Small, Medium and Large, and in the colours White and Black, list all those terms. This is necessary even if you do not carry every combination or are temporarily out of stock on some. You can delete any invalid variations on the Manage Your Inventory (MYI) page. See an example and Learn more.

Color

Add

Black

Grey

Example: Black, Grey, White, Brown

Your variation child ASINs have been created. To complete your listings, find the variation child listings in your inventory and select 'Edit' to add an image for each and every variation of child. Please note that each variation child listing requires an image to be active on the Amazon website.
